Mechanical Technician

As a Mechanical Technician, your responsibilities for ecological solutions will involve:

- Providing support to the Mechanical Supervisor (Maintenance) to ensure the machinery and equipment runs smoothly and reliably of an integrated Hazardous Chemical Waste Treatment Facility and related infrastructure.
- Installing, maintaining, repairing and troubleshooting of stationary industrial machinery, as well as mechanical equipment inside the plants and facilities.
- Tracking the progress and report
- Ensuring quality of work within the set time frame.
- Ensuring pre-site check of job task to be performed and prepare necessary tools, consumables, etc. before start of job.
- Ensure to maintain adequate use of tools, supplies and parts to accurately repair all equipment.
- Perform with maintenance employees along with other technical personnel, contractors to develop proactive and effective team working together to attain set objectives.
- Follow job method of statement and risk assessment to perform the job task.
- Conduct site check, dimension measurement, tools, equipment, spare, etc.
- Conduct routine 5S at maintenance workshop, store and work area at site.
- Assist store keeper to receive, stock check and issue of materials
- Safety is a core value at Veolia, and a pre-condition for employment. You are expected to uphold the Veolia Always Safe rules and set an example to all colleagues in your daily work routine.
- Ethics and compliance are two areas where our rules and our standards are strictly non-negotiable. You are expected to stick to ethics and compliance rules and standards which ultimately mean doing your job properly and conducting our business like true professionals, whatever our missions and our place in the Group.

The required criteria to fulfill these qualifications are:

- High School Diploma or minimum 5 years of relevant working experience.
- Experience in using CMMS (Computerised Maintenance Management System) is an advantage.
- Ability to work weekends, holidays and respond to callouts on a non-routine basis.
